SUMMARY

Full-Stack Developer with strong problem-solving skills and expertise in scalable web applications, REST APIs, and modern frameworks. Experienced in building production-ready full-stack systems through freelance work, open-source contributions, and real-world projects. Proficient in Data Structures, Algorithms, backend engineering, cloud deployment, AI-driven applications and system design.

TECHNICAL SKILLS

Languages: C, C++, Java, Python, JavaScript, TypeScript, SQL
Frontend Technologies: React.js, Next.js, Tailwind CSS, SCSS, HTML, WordPress, Figma, Redux, Zustand, Framer Motion, UI/UX Design
Backend Technologies: Node.js, Express.js, Django, Flask, REST APIs, JWT Authentication, WebSockets, RBAC, Socket.IO
Databases: MongoDB, PostgreSQL, MySQL, Redis, Supabase, Firebase
Cloud and DevOps: AWS (EC2, S3), Docker, Nginx, Linux, Git, GitHub Actions, CI/CD, Vercel, Postman
Core Concepts: Data Structures and Algorithms, DBMS, Operating Systems, Computer Networks, OOPs, System Design

EXPERIENCE

Open-Source Developer — GoFr and GSSoC

Jun 2025 – Sep 2025

- Developed scalable dashboard modules and secure JWT-based authentication workflows for open-source web applications.
- Designed and implemented backend APIs, improving code modularity, maintainability and system reliability.
- Collaborated through structured pull requests, code reviews, and issue tracking in distributed teams.

Student Developer — WeBuiltU

Jan 2025 – Jun 2025

- Built and integrated REST APIs for a MERN-based platform with secure authentication and role-based access control.
- Improved API performance and backend features through optimized database queries and efficient data handling.
- Contributed to deployment workflows and production feature releases in a collaborative team environment.

Freelance Full Stack Developer

Jan 2024 – Dec 2024

- Delivered end-to-end full-stack web applications with authentication, payment integration and cloud deployment.
- Designed scalable backend systems and optimized REST APIs for performance, reliability and efficiency.
- Managed deployment, configuration, and maintenance using cloud platforms and modern DevOps practices.

PROJECTS

QR-Based Multi-Event Ticketing Platform — QR Ticketing

([GitHub](#) | [Live Demo](#))

Tech Stack: Next.js, React, TypeScript, MongoDB, Razorpay, Vercel

- Built a scalable full-stack ticketing system with QR-based entry validation, secure payments, and multi-event management.
- Implemented role-based dashboards and offline QR scanning with sync mechanisms for reliable event check-ins.

AI-Powered Expense Management System — Plan My Budget

([GitHub](#) | [Live Demo](#))

Tech Stack: Next.js, TypeScript, PostgreSQL, Drizzle ORM, Clerk, Docker

- Developed an AI-powered budgeting system for expense tracking, category management and financial insights generation.
- Integrated authentication, analytics dashboards, and automated reminders to enhance user experience.

3D Car Simulation System — NK Drive

([GitHub](#) | [Live Demo](#))

Tech Stack: Three.js, WebGL, JavaScript, Blender

- Built a browser-based 3D car simulation with real-time physics, camera controls, and interactive rendering.
- Designed optimized rendering and input handling systems to ensure smooth and responsive performance.

AI-Based Room Visualization Application — Plot My Room

([GitHub](#) | [Live Demo](#))

Tech Stack: React, TypeScript, Tailwind CSS, Vite, Shadcn UI

- Developed an AI-based tool to convert 2D floor plans into interactive room visualizations with comparison features.
- Implemented image processing workflows and responsive UI for seamless user interaction across devices.

ACHIEVEMENTS

- GATE CSIT 2026 Qualified
- LeetCode Knight (Top 2%) — Solved 250+ Data Structures and Algorithms problems
- Smart India Hackathon (SIH) Finalist — Led a 6-member team to build a solution within 36 hours
- NDA Recommended Candidate — Cleared written examination and SSB interview

EDUCATION

Bachelor of Technology (B. Tech) — Computer Science and Design

Oct 2023 – Jul 2027

Galgotias College of Engineering and Technology, Greater Noida, India

CGPA: 8.52/10

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Cybersecurity, System Design

CERTIFICATIONS

- MongoDB Associate Database Administrator
- Oracle Cloud Infrastructure AI Foundations Associate
- Professional Diploma — Software Testing and Quality Assurance
- Professional Diploma — Web3 and Blockchain
- Information Security Associate
- GitHub Foundations
